

YI'S SOLUTIONS

AUTOPILOT PROFILE

When customizing an Autopilot profile, you should learn to set up controls to resolve issues with your profile.

Summary

Chapter 1 Autopilot profile

Table of contents

Chapter 1	Autopilot profile	Page 1
A.	Understanding existing configuration files	Page 1
1.	View	Page 1
2.	Custom Modifications	Page 1
B.	Comparison of autonomous driving configuration files	Page 1
1.	View the Autopilot Configuration File	Page 1
2.	Detailed comparison of configuration files	Page 31

Chapter 1 Autopilot profile

A. Understanding existing configuration files

1. View

Open the directory: {drive letter}:\YiSolutions_Encapsulation_Autopilot\Microsoft Windows 11\24H2, for example, view: 1.zh-CN.json, 2.zh-TW.json, 3.zh-CN.zh-TW.json, 5.zh-CN.zh-TW.ja-JP.Ko-KR.json, All.json

2. Custom Modifications

Custom modifications use the packaged script update function. After the update is completed, the old autonomous driving configuration file will be overwritten. It is recommended that you copy it before operation.

Open the directory: {compressed package}:\YiSolutions_Encapsulation_Autopilot\Microsoft Windows 11, select copy 24H2, and rename the directory to 24H2_Beta or rename it to another name.

B. Comparison of autonomous driving configuration files

1. View the Autopilot Configuration File

Open: {compressed package}:\YiSolutions_Encapsulation_Autopilot\Microsoft Windows 11\24H2\1.zh-CN.Additional.Edition.json, configuration file content:

Solution: Deployment Engine, Pre-Answer, Collection

Solution: Deployment Engine

Allow adding deployment engines

Select deployment engine version

Optional Features

Automatically fix when prerequisites are not selected

First time experience, after completing the prerequisites

First experience, prerequisites

Allows full disk search and synchronization of deployment tags

Add home directory to Defend exclusion directory

Network Location Wizard

System disk label: Same as the main directory name

When encountering multiple languages:

Block Appx cleanup maintenance tasks

Prevent cleanup of unused Feature on Demand language packs

Prevent cleaning of unused language packs

Personalized Menu

Allows adding personalized "context menus"

Hold down the Shift key while right-clicking

Hold down the Shift key while right-clicking

Allow changing system locale

Beta: Global language support using Unicode UTF-8

Specifying time zone markers

Restart your computer

First experience, after completion

The deployment engine main interface pops up

Allow first preview, as planned

```
