ILLUSTRATE:

Keywords: **ITERATION, CROSS-VERSION, MAJOR VERSION, CUMULATIVE UPDATE, INITIAL VERSION**

1. Please re-create the image when each version is updated. For example, when moving from 21H1 to 22H2, other compatibility issues should be avoided. Do not create based on the old image;
2. The ban on cross-version regulations has been clearly communicated to packagers in various forms by some OEM manufacturers, and direct upgrades from iterative versions are not allowed;
3. Please use the "initial version" and "developer version" during production. Microsoft's official documentation briefly stated that the initial version must be used during production, but this sentence was later deleted from the official documentation;
4. After installing the language pack for Windows 11 and Windows 10, you must:
 - 4.1. Re-add cumulative update (can be the same version number);
 - 4.2. Failure to add cumulative updates will cause problems such as "garbled characters" and "interface crash";
 - 4.3. After adding cumulative updates:
 - Windows 11 22H2, Build 22000.382 + KB5027303 = OS Build 22621.1928
 - Windows 10 22H2, Build 19045.2006 + KB5027215 = OS Build 19045.3086
5. When the magnet link cannot be opened, please right-click to copy the link and use the download tool to paste it;
6. How to download magnetic connection, please use download tools, such as common software: qBittorrent, Thunder and other software;
7. When downloading and obtaining the operating system, language pack, function pack, and InBox Apps, they are divided into different architectures (ARM64, X64, X86);
8. When adding a language, it must correspond to different architecture versions. If it does not correspond, an error will be reported during the adding process.

B. Sewing and mending

1. Video tutorial: How to repair missing files in Windows 11 official language pack and InBox Apps

Bilibili, Xigua Video, Tencent Video, iQiyi, Sougu Video, Youku
2. When editing ISO files, you need editable tools, such as: PowerISO, DAEMON Tools, ISO Workshop;

3. List of known “Give short measure” items:

SN	VERSION	LANGUAGE PACKS, FEATURE PACKS, INBOX APPS	REPAIR PROCESS
1	Windows 11 Version 22H2 Build 22621.382	Install.wim (1 item) Microsoft-Windows-MediaPlayer-Package-{arch}-{lang}.cab	Edit 22621.1.220506-1250.ni_release_amd64fre_CLIENT_LOF_PACKAGES_OEM.iso and add the downloaded file to the [ISO]:\LanguagesAndOptionalFeatures directory.
		InBox Apps (2 item) Microsoft.HEVCVideoExtension_8wekyb3d8bbwe.x64.appx Microsoft.HEVCVideoExtension_8wekyb3d8bbwe.x64.xml	I. After downloading 22621.1.220506-1250.ni_release_amd64fre_InboxApps.iso, save the missing files to the desktop; II. Edit 22621.1778.230511-2102.ni_release_svc_prod3_amd64fre_InboxApps.iso and add the downloaded InBox Apps item to the [ISO]:\packages directory;
2	Windows 11 Version 21H2 Build 22000.194	Install.wim (1 item) Microsoft-Windows-MediaPlayer-Package-{arch}-{lang}.cab	Edit 22000.1.210604-1628.co_release_amd64fre_CLIENT_LOF_PACKAGES_OEM.iso and add the downloaded file to the [ISO]:\LanguagesAndOptionalFeatures directory.
3	Windows Server vNext 25921	Install.wim (7 item) Microsoft-Windows-ProjFS-OptionalFeature-FOD-Package-{arch}-{lang}.cab Microsoft-Windows-Telnet-Client-FOD-Package~31bf3856ad364e35-{arch}~{lang}.cab Microsoft-Windows-TFTP-Client-FOD-Package~31bf3856ad364e35-{arch}~{lang}.cab Microsoft-Windows-VBSCRIPT-FoD-Package~31bf3856ad364e35-amd64-{lang}.cab Microsoft-Windows-VBSCRIPT-FoD-Package~31bf3856ad364e35-wow64-{lang}.cab Microsoft-Windows-WinOcr-FOD-Package~31bf3856ad364e35-amd64-{lang}.cab Microsoft-Windows-WinOcr-FOD-Package~31bf3856ad364e35-wow64-{lang}.cab WinRE.wim (1 item) WinPE-Scripting-VBScript-Package~31bf3856ad364e35~{arch}~{lang}.cab Boot.wim (1 item) WinPE-Scripting-VBScript-Package~31bf3856ad364e35~{arch}~{lang}.cab	Edit Microsoft_Server_InsiderPreview_LangPack_FOD_25921.iso and add the downloaded file to the [ISO]:\LanguagesAndOptionalFeatures directory.

Two. **KNOWN ISSUES**
